

Oil-free compressors for the beverage industry

The cost saving
alternative to CO₂

DÜRR
TECHNIK

100% oil-free compressed air

for top quality drinks dispense

Using our knowledge we can show you how to make savings.

Dürr Technik are leaders in the field of oil-free compressor technology and for many years have provided high quality equipment to brewers, pub companies, and restaurant operators, everywhere beverage is dispensed - from small family business to large stadiums.

Your advantages:

- Savings on CO₂ gas costs
- Reduction in Health and Safety risks
- Reduction in the number of CO₂ bottles stored on site and manual handling
- Air is very economical and enviromentally friendly
- reduces your operation-carbon-foot print

Your benefits:

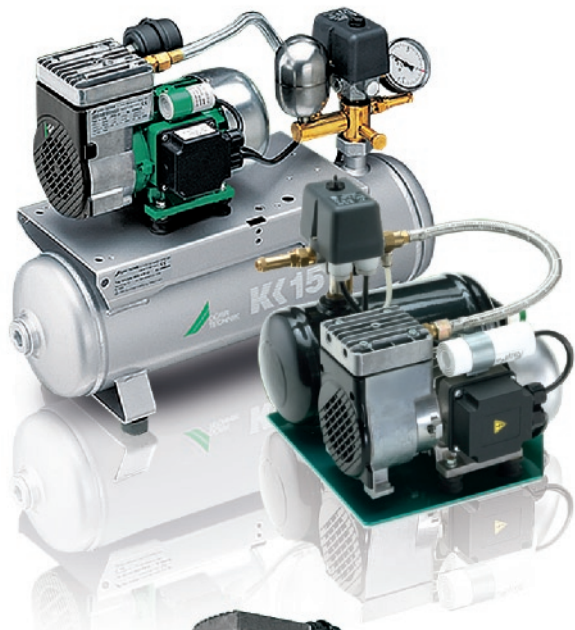

- ideal for long beer lines and multi tap dispense systems
- stops over carbonisation of the beer
- reduces time of beer-out
- reduces fobbing when changing kegs
- Ability to empty the keg 100%

The applications:

- suitable for all gas pump dispensing systems
- e.g. driving syrup and beer pumps
- pressurising beer tanks
- bag-in-box systems
- compressed air for nitrogen generators
- Micro compressor units for smal outlets
- Stand alone cleaning pump compressors

Standard Features:

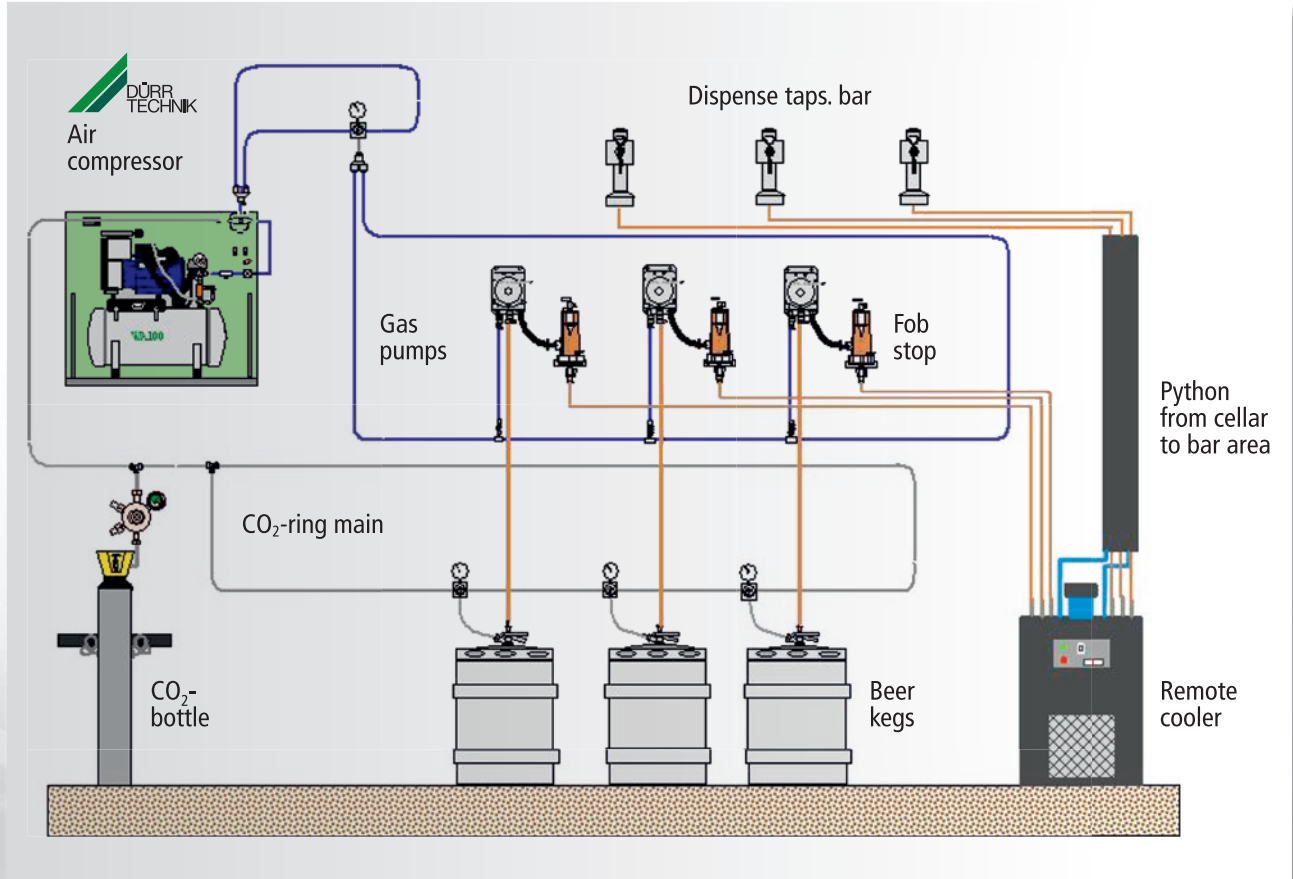

- Internally coated receivers, prevents corrosion and contamination
- Automatic condensate removal
- Thermal protection
- Pressure Switch with current relay protection
- Presssure gauges
- safty valve
- All the technic compressor station for beverage despence are c.o.p. compliance

OIL-FREE COMPRESSOR STATIONS										
Type	Free air flow at 0 bar (l/min)	Nominal pressure (bar)	Noise level dB (A)	Performance data of motor		Receiver	Voltage	Frequency	Protection-class (IP)	Dimensions L x B x H (mm)
UA-025	25	7	55	Motor input P1 (W)	Current consumption (A)	3	230	50/60	54	330 x 330 x 320
WA-038 ¹⁾	38	7	57	310	1,5	10	230	50/60	54	545 x 180 x 400
WA-038 AK ²⁾	38	7	57	310	1,5	10	230	50/60	54	545 x 180 x 400

1) with mechanical method of discharge and manual condensate drainage
2) with electrical starting solenoid valve and automatic condensate removal

OIL-FREE COMPRESSOR STATIONS										
Type	Free air flow at 0 bar (l/min)	Nominal pressure (bar)	Noise level dB (A)	Performance data of motor		Receiver	Voltage	Frequency	Protection-class (IP)	Dimensions L x B x H (mm)

Python Care

– the cost effective beverage power line cleaner

Benefits of Python Care:

- Cost effective with very high effective cleaning rate
- Best efficiency at removing bio films and beer stone
- Individual dosage depending on the level of cleaning required
- Rinses out easily with no contamination
- Eligible for alkali-consistent lines to tap beer, wine and softdrinks
- Free of any chlorine derivatives with no decay of beverage lines

Our practical Python Care metered-dose bottle, allows convenient and exact dosages.

Individual consulting is important for us

If you require further information or advice on any of our products and services, or you have a specific application you would like our technical team to help you with, simply give us a call.

Certified to: DIN EN ISO 9001:2008 – for your safety.
